COMMERCIAL INTELLIGENCE

THURSDAY EVENING, AUGUST 2.

MONEY is rather easier in Lombard-street, and three months' bills are discountable at ½ per cent. under the Bank rate; four months' bills at ½ per cent. less. This has led to a better demand for the leading Stock Exchange Securities. Consols are quoted at 99¾d.—a rise of ¼; Rupee paper is ¼ better, four and four-and-a-half per cents being quoted at £79½ and £83¾ respectively per thousand rupees.

In the General Produce markets, Coffee is firm; Seeds and Wheat unchanged.

The Manchester Piece-goods market is quieter.

The Liverpool Cotton Market yesterday closed quiet for Americans. Surats dull; arrivals quiet. Sales 8,000 bales, of which 600 bales Surats. Prices show no change whatever. In New York Spot Cotton is unaltered, but "futures" for the month of October have advanced 17 points, the closing quotation being 10·03 cents. The rise in America cannot fail to re-act on Liverpool, and we shall likely hear of some improvement there in to-morrow's messages. The figures to date are given below :—

	1883.	1882.	1881.
Total receipts up to Tuesday...	5,920,000	4,629,900	5,719,100

DEFECTIVE OR FAILING SIGHT.

THE sense of sight is so valuable that the importance of perfect and carefully adjusted spectacles can scarcely be overrated; although the wearing of single eye-glasses should be strictly avoided, we have the highest medical authority, confirmed by daily experience, that imperfect glasses, together with the haphazard plan of selection generally employed, are frequent causes of irremediable injury to the sight; and as [illegible] economy can [illegible] to use the all to its pebble or glass spectacles now so generally sold.

For the guidance of those who are using pebble spectacles, it may be stated that when the pebbles are cut *against* the grain, and not polished on the principle which has been universally declared the most appropriate, based on scientific research, they are injurious to the sight.

Unadvisable as the unnecessary wearing of spectacles undoubtedly is, the common notion that their use should be postponed to the utmost is proved beyond dispute to be a grave mistake.

Being in possession of all the optical instruments taken over by us from Dr. A. Meniet, we are not only in a position to suit the eye sight to perfection, but to supply different accommodations for each eye which so frequently are needed.

DR. JAYNE'S SANATIVE PILLS cure Melancholy, sick Headache and Costiveness.

DR. JAYNE'S SANATIVE PILLS are a sovereign remedy for Erysipelas, Diseases of the Skin and Inflammation.

DR. JAYNE'S SANATIVE PILLS have succeeded in working an effective cure, when all other drugs have failed.

DR. D. JAYNE, of Philadelphia, writes that "when the CHOLERA prevailed in the year 1832 I was in practice in Salem county, New Jersey, and had between thirty and forty distinctly marked cases of Asiatic Cholera. I saw the patients in all stages of the disease, at the commencement, and when the cold, clammy sweat of death was upon them—YET EVERY ONE RECOVERED. To all I administered the CARMINATIVE BALSAM, and in no instance did it fail to give immediate relief."

This medicine is now sold everywhere in Bombay.

The Bombay Gazette

FRIDAY, AUGUST 3, 1883.

THE telegraphic reports of the meetings succeeding each other in London on the quite threshed out question of the Jurisdiction Bill, are depressing to a degree. The meetings do not advance the subject in controversy one inch; everything that is now being said *pro* and *con* has been said over and over again already, and the final decision of Government will be based upon considerations which are not apparently even in the thoughts of the London politicians who busy themselves on one side or the other in this most unreal campaign. Mr. Bright's declaration that the Bill is an act of justice which fulfils the promises of the Queen's Proclamation is a rhetorical burst which is unworthy of the foremost orator of the day. It is about on a level, as a practical contribution to the discussion, with the declaration on the other side that if the Bill be passed the planters will abandon their estates, and there will be no more tea or indigo grown in Bengal. That announcement is effective for those who are in a state of mind to believe it, but it can have no influence upon those who know very well that it has no reference whatever to the facts of the case. Mr. Bright's allusion to the Queen's Proclamation stands in the same category. The case for the Bill would be just as strong, or just as weak, had the late Lord Derby never drafted the "Magna Charta of India." We always regarded it as a grave mistake for the Anglo-Indian opponents of the Bill to endeavour to make it a subject of agitation in England. Sir Alexander Arbuthnot and his committee could not expect to cope on equal terms with the passed masters in the art of agitation whom they were sure to draw into the field against them. The great manufacturing cities were induced to declare in favour of the Bill by the *quasi* support accorded to the opposition by a section of the Conservative party. Now Mr. Bright presides at a meeting in the Metropolis, and his solemn and sonorous sentences will form the staple of popular opinion on this measure for the rest of the year. It would have been much wiser to keep the discussion throughout within a circle where the men of special knowledge could have debated the question with some prospect of influencing the Government in the final decision.

AN argument is frequently used even now against the policy of local self-government in India, which, if it were sound, would certainly be strong. It is stated that the idea of local self-government is an innovation, and that the Government of India is starting from a new point altogether. It ought by this time, one would suppose, to be well understood that the present scheme is, to a great extent, the embodiment of ideas which have been fructifying in the minds of Anglo-Indian statesmen for many years. Sir Bartle Frere, in 1871, brought forward a scheme of his own, the outlines of which he read at a meeting in London of the East Indian Association, in June, 1871. In the discussion that followed, extending over three adjournments, Mr. Forsyth, General Le Grand Jacob, Dr. Mowat, and several others took part; General Sir V. Eyre occupied the chair; and several native gentlemen were present, and took part in the discussion, among them being Kazi Shahabudin, now Dewan of Baroda, and Syed Mahmood. At the present juncture it will be instructive to recall the [illegible] points of Sir Bartle Frere's schema[illegible] and the principal arguments employe[illegible] during the discussion. INDIAN MEDICAL OFFICERS FOR EGYPT.

(FROM OUR OWN CORRESPONDENT.)

SIMLA, AUG. 2.

The Egyptian Government is now very desirous of accepting medical aid from India, and asks for forty hospital assistants, all to be Mussulmans, and all to have passed in English, as they will chiefly be required for sanitary work. As many as possible will be sent from the Sanitary Department. The Egyptian Government also asks for seven other medical men from India having knowledge of sanitary administration. The terms offered for the latter are three hundred pounds for three months, together with travelling expenses and lodging. The Medical Officer in Charge will, I believe, be selected from among the Deputy Sanitary Commissioners of not less than eight to ten years' service. It is asked that caution may be exercised in the selection of Musulman assistants. Only those fitted for sanitary work will be sent. They will be selected from the first, second and third classes, fewer proportionately from the third.

MEETING IN SUPPORT OF LORD RIPON'S POLICY.

LONDON, AUG. 2.

A crowded meeting, under the presidency of the Right Hon'ble John Bright, to express approval of the Marquis of Ripon's policy in India, took place in Willis's Rooms last night. The Right Hon'ble W. E. Forster, Lal Mohun Ghose, several Indian officials, and many members of Parliament were present. Resolutions were adopted, expressing confidence in the Marquis of Ripon, and complete approval of the legislative measures proposed.

Mr. Bright said Mr. Ilbert's Criminal Procedure Bill was an act of justice, in fulfilment of the promises made in the Queen's Proclamation. He attributed the clamour raised against the Bill to jealousy on the part of the Covenanted Servants and the Indian Bar; and he concluded his speech by appealing to the present generation to redress the wrongs committed by their forefathers.

THE TENANTS' COMPENSATION BILL.

The House of Commons last night finally passed the Tenants' Compensation Bill.

COLONEL BARTON'S successor as Political Agent, Kattywar, is Lieutenant-Colonel E. W. West, at present Acting Political Superintendent of Savantwadi. Colonel West will take charge of his new appointment on September 24.

CAPTAIN FENTON, Acting Second-in-Command of the Savantwadi Local Corps, acts as Political Superintendent of the State as a temporary measure, from the departure of Lieutenant-Colonel West, and pending the return of Colonel Westropp from furlough.

ON July 27 the water in Vehar lake was 70 cents. lower, and in Tulsi lake 3 ft. 5 cents. higher, than on the corresponding date of last year. This year to the same date, 7 in. 10 cents. more rain had fallen at Vehar, and 8 in. 15 cents. more at Tulsi, than last year.

MR. E. C. OZANNE, C.S., who while in England lately took high honours as a student of scientific agriculture, has been appointed Director of Agriculture in the Bombay Presidency.

SURGEON MAJOR H. COOK, M.D., is appointed to be Civil Surgeon, Poona, *vice* Dr. Joynt, resigned.

NEW rules for regulating the Government grants-in-aid to schools in this Presidency are published in yesterday's *Government Gazette*.

THE Municipalities of Junnar and Talegaon propose to raise loans of Rs. 33,000 and Rs. 28,500 respectively, at 5 per cent. interest, for the purpose of improving the water-supply of those towns

WE see from the official return that though there has been very little rain in Bombay during the past week, the fall for the season is still slightly above the average.

THE Poona Horse and Cattle Show is to be held on Tuesday, Wednesday, and Thursday, the 18th, 19th, and 20th September. Prizes are offered for horses, ponies, and mules, divided into Fancy Classes and *Bona Fide* Breeders' Classes, and for cattle and sheep. Major Babington is the Secretary.

MR. GRANT DUFF arrived at Madras, on completion of his tour, on the 30th July.

THE great Calcutta International Exhibition is expected to be opened by the Hon. Mr. Rivers Thompson, Lieutenant-Governor of Bengal, during the first week in December.

A PRIVATE telegram received from England states, it is reported, that in the appeal in the case of Surendronath Banerjee, Sir Barnes Peacock held that the High Court still possesses summary jurisdiction.

A MADRAS paper reports that cholera exists in epidemic form throughout the Salem district.

A RANGOON telegram states that two men have been arrested for complicity in the dreadful tragedy at Tavoy in the end of April, when six people were murdered. They assert their innocence, but accuse each other.

THE culprit in one of the cases of assault on ladies, by which Calcutta, and the *Englishman* in particular, was so much disturbed, has been tried and convicted; but the investigation does not appear to have afforded any clue to the imagined "conspiracy of native agitators." The *Pioneer's* correspondent at Calcutta telegraphed on July 30:—"Hurri, mehter, was charged at the Fourth Criminal Sessions of the High Court here to-day with an attempt at a criminal assault on Mrs. Hume, the wife of the Public Prosecutor. He was found guilty, and sentenced to eight years' transportation. Although the prisoner is said to have made certain admissions to the police when he was first arrested, he withdrew these, and no definite motive for the crime can now be traced."

THE monsoon season continues generally favourable. There are still, however, complaints of too little rain having fallen in the dry zone of the Southern Mahratta Country (Kaladgi, and parts of Belgaum and Dharwar); and the Upper Sind Frontier is in similar case. In the latter district, besides the fact that there is "insufficient water in the Zemindari canals, and consequently the crops are withering in Thal taluka," 3,162 acres of crops are reported to have been destroyed by insects. Young locusts have now made their appearance in all the Deccan and Konkan districts where locusts were present before the rains. No information is given as to the progress of the operations which are understood to be vigorously at work, under Captain Bor's superintendence, for the extirpation of the pest. In most parts sowing has been completed, and generally the condition of the young crops is reported promising.

A CORRESPONDENT who recently travelled through a portion of the Rutnagherry Collectorate sends us the following information on the subjects of the weather and things agricultural in that district:—It was like travelling under Niagara. I don't think any one has an idea what marching in the South Konkan in the rains is like. However, when the rain held off so that one could see anything at all, the scenery was most beautiful, with splendid waterfalls on every side. There was no distress whatever in Sangameshvar Taluka. At the beginning of the rains the sowkars were inclined to withhold balances, but that was because for some six or seven days there was no fall, and they expected a failure of rain, and partly because the old locusts were doing damage, but they have all died now; and the sowkars have made their usual advances. It is to be hoped the same is the case in Khed, the poorest taluka in Rutnagherry. Young locusts have appeared in half-a-dozen villages in Sangameshvar, but their numbers seem small. I went to a locust drive in three villages; but with 15 men not a couple of feet apart, driving up to one *cumbli*, we could only catch 12 or 15 at a drive. When they get bigger they will perhaps be easier to catch.

ACCORDING to the latest accounts from Meerut, the state of the weather in that district is beginning to cause grave anxiety. A correspondent, writing on the 29th ultimo, says: "A whole tract of country, some 100 miles by 150, is suffering seriously from drought. The skies day after day are unclouded, and a hot dry wind blows as steadily as in the month of June. The prospects of the rice are already gone; indigo still holds out, though very stunted; sugarcane suffers perhaps least of any. All sowing has been stopped for some time past, and, unless rain falls within the next ten days, there will be an almost total failure of the autumn crop."

THE conditions of competition approved by the University Syndicate for the Karsandas Mulji, the Dossabhoy Hormusjee Cama, and the Sir George Le Grand Jacob prizes are published in yesterday's *Government Gazette*. The subject for the first-named prize is "The influence of commerce in weakening international prejudices and promoting culture;" for the second, "The advantages and risks attaching to a system of water carriage for sewage in this city, and the proper means for obviating the latter;" and for the third, "The revival and development of Municipal Institutions in the different provinces of British India through legislation, and the influence of the Government and the local authorities."

SIR FREDERICK WELD, Governor of the Straits Settlements, and Mr. E. C. Buck, of the Indian Agricultural Department, had a narrow escape of being shipwrecked the other day. His Excellency, accompanied by Mr. George Browne, Private Secretary, and Mr. Buck, Secretary to the Government of India, embarked on board the steam launch Pilot Fish for Malacca. They had a very rough passage and narrowly escaped foundering at sea, the launch being struck early on Saturday morning by a violent "Sumatra,"—as the terrific squalls are termed which burst furiously from the Sumatra coast during the S. W. monsoon,—when she careened over so much that she took in two feet of water into her hold, there being a foot of water in the cabin. Fortunately she righted after a little, and reached port in safety.

THE *Englishman*:—The press throughout India are congratulating Major Baring on his well-deserved honour of a K.C.S.I., and we heartily add our congratulations to those of the other papers. But when the list of birthday honours was published, and we commented on the omission of Mr. Rivers Thompson's name from the list as K.C.S.I., an official explanation was put forward that there was only one vacancy in the list, and as this had been long before promised to Mr. Morris, neither Major Baring nor Mr. Thompson could obtain the honour at that time. No vacancy has since occurred in the ranks of the Knights of the Star of India, so a special dispensation must have been obtained from Her Majesty for the creation of Major Baring as a Knight, and this makes the honour all the greater, as well as the distinction the more invidious.

A SERIOUS riot took place about a fortnight since near Galle, between the inhabitants of two villages, the cause being the elopement of a Chaliya (cinnamon-peeler caste) woman with a low-caste man. The police who were sent from Galle to put down the riot were seriously assaulted, a number having to be sent to hospital; but a subsequent *posse* succeeded in restoring quiet.

[illegible] has conferred upon Rajah Surendro Mohun Tagore, C. I. E., the distinction of Commander (second class) of the Order Wassa.

THE *Indian Daily News* comments as follows on the appointment of Dr. Boustead to succeed the late Dr. Cody as acting surgeon of the Goculdas Tejpal Hospital:—"There seems to be something radically wrong in the working of the patronage of the Bombay Medical Department. The last instance of the inability of some one to understand what is required to restore co-judicature in the administration of the department is the appointment of Surgeon-Major R. Boustead to act as Surgeon of the Goculdas Tejpal Hospital in addition to his own duties as Superintendent of Matheran. Now, either of these appointments is enough to occupy the time of any single officer, and to double them up is to show that whoever made the appointment is ignorant of the work to be done, and careless as to how it should be done. So many mistakes have recently been made in the Medical Department, Bombay, that Sir James Ferguson will almost lay himself open to a charge of neglect of duty, or of the public interests, if he fail to notice that of which everybody else seems to complain." The Superintendent of Matheran, even a Calcutta paper might be expected to know, has not a very onerous post during the monsoon, and Dr. Boustead has only been called upon to take up the dual appointment temporarily. No doubt by the time the monsoon is over and the Superintendent of Matheran has some employment for his time, Dr. Boustead will be relieved of one office or the other.

THE Bengal Quarterly Army List for the quarter ending 30th June, 1883, discloses some peculiarities, the *Englishman* says, in connection with the employment of officers of native regiments in civil duties. "We have frequently expressed our opinion that, if officers, on joining the Army as subalterns, desire to join the civil service of Government, they had better resign their commissions. The absurdity of permitting officers to rise from Lieutenant to Colonel without performing a day's military duty, and hold military rank whilst performing civil duties, is a disgrace to any army."

WE hear active negotiations are now in progress between the authorities of the Suez Canal Company and the Eastern Electric Light and Power Company, Limited, for lighting the Canal with electricity on the Brush system, and it is expected that the work will be commenced very shortly. Sir Albert David Sassoon recently gave a garden party and fête at his residence, Kensington Gore, which was magnificently lighted throughout with the electric light supplied from the Sellon-Volckmar accumulators. The designs and arrangements of the Swan incandescent lamps were most effective, and were executed by Mr. Henry, a leading artist. The Brush patents and the right of using the Sellon-Volckmar accumulators and Swan incandescent lamps form a portion of the patent rights agreed to be assigned by the Eastern Electric Light and Power Company, Limited, to the Bombay Electric Light and Power Company, Limited.

A CORRESPONDENT, writing from Peshawur to a Calcutta paper, says that the Shinwaris having attacked the Ameer's outpost at Pesh Bolak, 200 horsemen and 200 unmounted soldiers have again been stationed there. The Ameer has ordered Syud Mahomed Jan, the ex-Badshah of Kunar, to appear at his camp, but up to the present time the ex-Badshah has shown no signs of appearing. At the expiration of forty days, the Ameer, it is stated, intends to attack Mahomed Jan, who is preparing for a defence. The Ameer has given certain confiscated lands of the Shinwaris to the people of Pesh Bolak. The same correspondent says "the Ameer has demanded a statement of the revenue of Turkestan from Sirdar Ishak Khan, but the Sirdar was angry, and replied, 'You have the whole of the Cabul revenues in your hands, and cannot you trust me with the revenues of the province of Turkestan?' The Ameer was much displeased at the message. Sirdar Ishak Khan is the eldest son of the late Ameer Azim Khan, and therefore a cousin to the present Ameer."

"TWIST THE LION'S TAIL" is the elegantly metaphorical heading of a paragraph in a New York paper, announcing that a call dated "Headquarters of the National party of the United States," signed Clifton Sylvestor, Sec., *pro tem.*, and addressed to "all citizens loyal to their country," has been issued for a convention at Philadelphia to make nominations for President and Vice-president of the Republic. The platform of the party is announced to be:—"Immediate preparation for the inevitable third war with England."

THE *Englishwoman's Review* is responsible for the following story:—Miss Susan B. Anthony has come from America to "run" the Woman's Rights movement in Germany. The German Government have stopped her letters in transit through the post, but not because they object to Miss Anthony's special cause. It is because she will insist on printing on her envelopes certain quotations from the Declaration of Independence, such as "Governments derive their just power from the consent of the governed," that the authorities have ordered her letters to be seized. This, we presume, appears to Prince Bismarck wild political heresy.

IT is not quite easy, remarks *Truth*, to see what Mr. Gladstone can do about Lord Randolph Churchill's official indictment of the Khedive. This indictment does not prove actual complicity on the part of the Khedive in the massacres, but renders it morally almost certain that he is not free from guilt. How, then, can we continue to support him against his own subjects? Our position is all the more difficult, as one of the grounds for giving him our support was that these massacres had been instigated by Arabi. The difficulties of our situation are the necessary consequences of our having recklessly embarked in a cause which was not ours, and about whose merits we knew nothing. One fault has begotten another, until, turn as we may, we can hardly help adding blunder to blunder.

MILITARY NEWS.

THE Duke of Connaught, in addition to the Commander-in-Chief in India and the Commander-in-Chief of Bombay, is expected to be present at the Bangalore camp of exercise. It is also probable, a local paper says, that representatives of the Armies from the Bengal and Bombay Presidencies, as well as from the N. W. P. and Burmah, will also be present.

LIEUT.-COLONEL C. A. E. S. CARTER, Acting Controller of Military Accounts, Madras, proceeds to England on three months' privilege leave. Major C. J. Durand, the Pay Examiner, will perform the duties of Colonel Carter's office in the meantime.

MESSRS. T. B. ST. J. BASHFORD, J.E. Berkeley, and G. W. Hillier have been appointed Lieutenants in the G. I. P. Railway Volunteer Corps.

SIXTY days' privilege leave of absence is granted to Colonel O. R. Stokes, commanding Royal Artillery, Allahabad Division, from 16th August.

THE annual allowance of ammunition for Volunteer Corps has not been increased, though a late Order gives every British cavalry and infantry soldier 260 rounds of ball cartridge the first year of his service, and 160 rounds annually afterwards.

CAPTAIN BREBNER, late Indian Navy, Officiating Port Officer, Calcutta, and recently of Bombay, has been mainly instrumental in inducing some 115 residents of Calcutta to put down their names for joining the new battery of Naval Artillery Volunteers. The Government of India have accepted the offer of service, have designated the corps the "Calcutta Naval Artillery Volunteer Corps," which will be attached to the Administrative Battalion of the Presidency Volunteers, have called for the name of the commandant, and have promised the issue of arms and the appointment of a Sergeant Instructor of Royal Artillery, so soon as the G. O. is issued announcing the formation of the corps. The corps is to consist at present of one battery, with a major, captain, and two lieutenants.

GRASS PRESERVES IN CANTONMENTS.—The open land in cantonments in Allahabad and Cawnpore has been taken up, under the orders of the Government of India, for grass preserves, and officers serving at these stations have been requested to co-operate in giving protection from trespass on the ground, which has become considerable expense. By this arrangement, which, the *Pioneer* says, is due to the General Commanding the Division, grass will now be procurable in immediate proximity to the lines, and the difficulty formerly experienced in regard to this matter will thus be surmounted. The cultivation of fodder is to be improved as much as possible. There is no objection to the troops going over the ground either for exercise or amusement, but as Government have been very liberal in the matter of roads, it is to be understood that pathways across the preserved ground are absolutely forbidden.

TELEGRAPHIC WEATHER REPORT.

SIMLA, August 1.—The barometer has risen in the Punjab, the N.-W. Provinces and a few of the central and south-western stations. It is still falling elsewhere. The depression on the north-west frontier has almost disappeared, but that over Bengal is still distinct, only to westward of yesterday's position. The wind circulates distinctly round the depression; elsewhere it remains generally westerly, though at some Punjab stations stations it has backed to the south-east. Rather heavy rain has fallen over Bengal, Assam, and Burmah; and very slight showers at a few west coast stations and in the North-West Himalayas. Elsewhere there has been no rain. Rain to-day:—Chittagong, 3 inches; Burdwan, Calcutta, and Akyab, 2 inches; Silchar, Darjeeling, Purneah, Patna, Gya, Hazaribagh, Saugor Island, False Point, and Tounghoo, 1 inch; Simla, ½ inch. Previously, Bahraich, Bhaugulpore, Valeutia, and Raipur had 1 inch; Gya, Trichinopoly, and Prome, ½ inch.

PROGRESS OF THE MONSOON.—An official report for the week ended July 28 states:—At the close of the previous week there were some slight indications of the burst of the monsoon, and in the present week this tendency has been developed into a positive fact. In Sind, &c., and the Punjab there has been no measurable amount of rain, while in all districts except Upper Burma, and the N. W. P., the average has not been reached. In South Madras the stations of Madura and Negapatam were entirely without rain, but the total amount in the region was brought up to the average by the large amount (20 inches) which fell at Mercara. Along the west coast from Bombay to Mercara, and also in Burma, rain fell on every day, and in Assam and the N. W. P. on nine days out of the seven. The amount in the N. W. P. was brought up to its high level by some large falls which occurred in Banares, Allahabad, and Lucknow, the western divisions of that region participating in the scarcity which characterised the Punjab, &c. At the close of the week the region over which the break in the rains was reported embraced the whole region lying to the north of the Satpooras and west of Benares.

Holloway's Pills.—The chiefest Wonder of Modern times.—This incomparable medicine increases the appetite, strengthens the stomach, cleanses the liver, corrects biliousness, prevents flatulency, purifies the system, invigorates the nerves, and re-instates sound health. The enormous demand for these Pills throughout the globe astonishes everybody, and a single trial convinces the most sceptical that no medicine equals Holloway's Pills in its ability to remove all complaints incidental to the human race. They are a blessing to the afflicted, and a boon to all that labour under internal or external disease. The purification of the blood, removal of all restraint from the secretive organs, and gentle aperitive action are the prolific sources of the extensive sales of Holloway's Pills.

THE PILGRIM QUARANTINE.

THE following Despatch from Her Majesty's Secretary of State for India to the Government of India, No. 93 (Statistics and Commerce), dated 14th June, with enclosures, is published in yesterday's *Bombay Government Gazette*:—

"In continuation of my despatch No. 73, of 10th May last, I forward herewith, for your information, a copy of a letter (dated 31st May 1883), with enclosures, received from the Foreign Office, relative to a proposal that from the 1st of January 1884 pilgrims from India, Sumatra, and the East should be forbidden to perform their journey to Mecca by way of Egypt, provided that the contemplated service of steamers between Camaran and Jeddah be duly and efficiently organized by that date."

ENCLOSURES.

Foreign Office, 31st May 1883.

Sir,—With reference to previous correspondence respecting the measures of quarantine adopted in Egypt as regards pilgrims on their way to the Hedjaz, I am directed by Earl Granville to transmit to you herewith a despatch from Her Majesty's Consul at Alexandria, enclosing a report by Mr. Miéville, the British Delegate at the International Quarantine Board, in which he submits, for the consideration of Her Majesty's Government, that, with a view to avoid further disputes on this question, it might be expedient for him to propose to the Committee having the sanitary direction of the pilgrim traffic that, from the 1st of January 1884, pilgrims from India, Sumatra, and the East should be forbidden to perform their journey to the holy places by way of Egypt, provided always that by that date the contemplated service of steamers between Camaran and Jeddah be duly and efficiently organized.

I am to request that, in laying these papers before the Earl of Kimberley in Council for such observations as His Lordship may have to offer thereupon, you will state that, pending an expression of his opinion on the general question, Lord Granville has deemed it advisable, having regard to the terms of the telegram from Mr. Cookson, of which a copy is also enclosed, to instruct that officer by telegraph that the protection of Egypt from infection is a matter for the Egyptian Government, and that the British Delegate may support the measure suggested if proposed by the Egyptian Government.—I am, &c.

EDMOND FITZMAURICE.

The Under-Secretary of State for India.

ENCLOSURE 1.

Commercial, No. 17.

Alexandria, 21st May 1883.

My Lord,—I have the honour to forward to your Lordship herewith a further despatch addressed to me by Mr. Miéville on the question of the measures proposed to be adopted with reference to pilgrims arriving at Suez from the East on their way to the Hedjaz.

The matter having now been referred to a Committee, and the circumstances having considerably changed, Mr. Miéville is of opinion that it would be expedient to take this opportunity to endeavour to predispose the majority of the Sanitary Board in favour of less severity in the imposition of quarantine on arrivals from India by conceding even more than the Committee would ask. He believes that this can be done, if he makes the proposal submitted in his despatch, with very slight inconvenience to British interests, the vessels bringing pilgrims to the Hedjaz by way of Suez being almost exclusively Dutch. I approve the suggestion, but I do not feel authorized to act on it, without reference to your Lordship, the adoption of a measure which appears, on the face of it, to impose an extra restriction on commerce.

Mr. Miéville has persuaded his colleagues on the Committee to grant him a delay of ten days from the 19th instant, and I have the honour, therefore, to request your Lordship to be good enough to instruct me by telegraph as to the course I should direct Mr. Miéville to pursue.—I have, &c.,

CHAS. A. COOKSON.

The Right Hon'ble the Earl Granville, K.G., &c.

Sanitary, No. 17.

Her Britannic Majesty's Consulate,

Alexandria, 17th May 1883.

Sir,—In my despatch, No. 16 of this series, of the 14th instant, I recorded that the Sanitary Council had accepted my proposal to refer the question of imposing quarantine at Suez against pilgrims from the East, on their journey to Jeddah, to the Committee for the elaboration of regulations.

I have now the honour to report that this Committee held its first sitting this afternoon. It is composed of five members, viz., the Inspector General of the Quarantine Service, the Consular Delegates of France, Italy, and Turkey, and myself. The four first named gentlemen did not hesitate to declare themselves strongly in favour of a quarantine of from five to seven days at Tor or Moses' wells on all pilgrims and pilgrim-carrying vessels, even though such vessels come from non-infected ports and have clean bills of health.

Being thus in a minority of four to one, I recognized that opposition would be practically unavailing, though I might gain some trifling concessions; and I came to the conclusion that rather than forcedly submit to the proposed quarantine, possibly with the addition even all of the victorious party, it would be undoubtedly more in the true interests of British commerce to myself propose a measure calculated to gratify and conciliate the majority of the Council, and so render them disposed to be less ready to impose quarantine against India without grave cause.

I was doubtless the more open to this conviction, as I had, two days before, learned that the Constantinople Council had decided, in the interests of commerce, to establish a special service of steamers between Jeddah and Camaran in order to free vessels bringing pilgrims from the East from the necessity of "waiting at Camaran to convey the pilgrims to their destination at the termination of their quarantine. I failed, moreover, to perceive how the radical suggestion that presented itself to my mind could seriously affect British interests, as the only pilgrims who come by way or Suez are Javanese, and of these only a portion are carried in British vessels.

I appeared to me, however, that by proposing any such measure, without first referring the matter to your appreciation, I should unduly incur a very grave responsibility. I therefore, after about an hour's discussion, decided that the sitting might be adjourned, and I now beg to submit to you, Sir, for your sanction, after, if you should deem it necessary, reference to Her Majesty's Government, the terms of the proposition which would, I think, if adopted by the Committee, be gratefully welcomed by the Council.

I would propose that the Committee advise the Council to insert in its regulations a clause to the effect that, from the 1st January 1884, pilgrims from India, Sumatra, and the East will not be allowed to approach the holy places by way of Egypt; provided always that by that date the contemplated service of steamers between Camaran and Jeddah be duly organized, and efficiently worked, and the Council is satisfied by a written assurance from the Sanitary Board at Constantinople that the arrangements at the quarantine station at Camaran have been properly completed.

The penalty for neglect of this regulation might take the form of prohibitive quarantine at Tor, with obligation on the vessel to take the pilgrims to Jeddah at its termination.

I frankly acknowledge that this, at first sight, may seem a somewhat rapid change of front, but I submit that this question has now entered on a new phase, and that the course I propose is both expedient and politic under the circumstances. On the one hand I still dissent strongly from the view that the pilgrim traffic by way of Suez constitutes a grave danger for the Hedjaz and for Egypt, but at the same time I allow that I am unable to see any sufficient reason why pilgrims should come by the long and indirect Suez route, instead of proceeding direct to Jeddah.

I continue also of opinion that to repel the Dutch pilgrim vessels the existing circumstance might be utilized to effect [illegible] in the important Suez Canal Navigation Companies, but it could be considered as [illegible] after the [illegible] particular service between Camaran and Jeddah. It must be remembered that under the alternative scheme, the ships would be obliged to leave the pilgrims at Tor.

And [illegible] pilgrims at Tor.

In an [illegible] that the station at Camaran is proposed finished state, and accordingly make my arrange contingent also on the completion of the

Posal [illegible] on the other hand, the alternative proposal to impose quarantine at Moses' wells or Tor would cause endless protests and bitterness, besides quite [illegible]s loss to commerce, and would not really accept [illegible]reasure the Board themselves unless we firmly [illegible] far-off station of Tor. For the majority even if [illegible]lieve that pilgrims are a danger to Egypt, [illegible]uarantined at Moses' wells.

ARTICLE 5.—In such cases all the orders contained in [illegible]eneral Regulation for cholera will be applicable [illegible], without exception.

ARTICLE 6.—No pilgrim vessel will be allowed to leave Camaran without taking again on board, after completion of quarantine, all the pilgrims which it had conveyed thither.†

ARTICLE 7.—Sambuks (native craft) arriving from the Arabian Coast from below the Cape of Bab-el-Mandeb with pilgrims are treated in all points similarly to vessels engaged in this special trade. They will have to proceed direct to the anchorage of Camaran and will be repelled from every other port of the Arabian littoral.

ARTICLE 8.—Vessels arriving from Bussora with pilgrims on board destined for the Hedjaz must also proceed exclusively to Camaran. They will be treated according to the tenor of their bills of health in accordance with the general regulation.

ARTICLE 9.—Clothes, personal effects and merchandise, if any, as well as the vessels, will be subjected to the special regime of the Regulation for cholera.

ARTICLE 10.—Arrivals from India in general are treated according to the Cholera Regulations of 1867.

Read at the Superior Council of Health and adopted at the sitting of 1st May 1883.

RULES.

Rules applicable to pilgrims and vessels carrying them arriving from countries situated beyond the Straits of Bab-el-Mandeb and bound to the Hedjaz with clean bill of health and no cases on board.

ARTICLE I.

On and after the 1st January 1884, pilgrims arrived from countries situated beyond the Straits of Bab-el-Mandeb and going to the Hedjaz shall not be permitted to land at Suez or any other Egyptian port in the Red Sea, although the country from which they come may be free from cholera, unless they have previously performed at Camaran, or at any other place appointed by the Ottoman authorities, the quarantine prescribed by the Constantinople Sanitary Rules.

However the present measure will only be applicable when the Egyptian Sanitary, Maritime and Quarantine Council shall know for certain that there is a service of steamers between Camaran and Jeddah, and that the quarantine establishment at Camaran has been completed on the basis specified in the Constanople report on the pilgrimage of 1883.

ARTICLE II.

His lordship, in passing sentence, said he entirely concurred in the verdict of the jury, and, considering the violence which had been used towards the lady, he would inflict a heavy sentence on the prisoner. The sentence was that he be transported for eight years on the second charge only, no sentence being inflicted on the other charges.—*Englishman.*

BENGAL.

FORGERY AND USING A FORGED DOCUMENT.—A case has been tried on appeal before Mr. T. S. Brown, the District Judge of Alipore, the issue of which was watched with interest by the pleaders of the court. The accused, one Mutty Lal Ghose, was charged with having used a forged document as genuine, knowing or having reason to believe that it was forged. An application for probate was filed by the prisoner in the district court of Hooghly, and the judge, finding that the will was a forged one, ordered the prosecution of the prisoner. Evidence was recorded in the lower court, and the case was committed for trial to the sessions, which was presided over by the committing judge. The jury found the prisoner guilty, and the learned judge sentenced him to seven years' rigorous imprisonment. From the jail, the prisoner appealed to the High Court, and the learned judges who heard the appeal, ordered a new trial in the court of the District Judge of Alipore. After a long and patient hearing, the jury there brought in a verdict of "guilty," and the judge, concurring in the verdict, sentenced the prisoner to seven years' rigorous imprisonment.—*Indian Daily News.*

A FATAL BLOW.—At the Alipore Sessions, on Friday last, before Mr. J. G. Charles, the additional Sessions Judge, a prisoner, named Ismael, a khitmutgar in the employ of Dr. Waldie, was charged on three counts, to wit, culpable homicide amounting to murder, by causing the death of a man named Koodratullah; culpable homicide not amounting to murder; and causing death by doing a rash and negligent act. Evidence was recorded at some length, and went to establish the fact that the prisoner, who was on visiting terms with the deceased's party, was prohibited from visiting them. Notwithstanding this, he called at the house at an early hour of the morning on the pretext of lighting a tickea (cake made out of charcoal), and struck a blow with a stick on the head of the deceased, who had the day previous arrived from his village. The blow proved fatal. The jury brought in a verdict of "guilty" on the last count only, and the learned judge sentenced the prisoner to ten years' rigorous imprisonment.—*Ibid.*

POST OFFICE APPOINTMENTS.—Rumours which, of course, require confirmation, have lately been afloat in the Postal Department to the effect that, on the retirement of Mr. E. R. Douglas, Deputy Director-General of the Post Office, sooner or later, Mr. P. Sheridan, the Inspector-General of the Mail Service, is to succeed him, and that Mr. W. Alpin, the Deputy Comptroller of Postal Accounts, is likely to be the Inspector-General, *vice* Mr. Sheridan. It is also said that, as one of the Postmaster-Generalships will become vacant at no distant period, by the retirement of one of the present incumbents, Mr. J. Dillon, the Comptroller of Postal Accounts, is likely to be promoted to that post.—*Ibid.*

IMPOSITION.—A Miss Matilda Newing is at present wanted by the police, for falsely representing herself at the firm of Messrs. Mackinnon, Mackenzie and Co., as the wife of one C. H. Monte, a mechanical engineer, who died at the presidency General Hospital on the 12th July, and who was in their employ for some time, and who was represented as leaving two children unprovided for. She, it appears, managed to secure the death-certificate of Mr. Monte, who was admitted into the said hospital on the 19th April, and died on the 12th July, 1875. The two last figures she erased very cleverly in the certificate, and substituted the present year instead. Thus altered, she presented the document to several gentlemen and raised a sum of Rs. 29, on the plea of defraying her husband's funeral expenses. At the firm above named, she called on one Mr. W. P. Alexander, who promised her assistance after making certain enquiries into her case. She, not being satisfied, the following day wrote to him enclosing a certificate and subscription list, asking for help, as she was starving with her two little ones at home. Mr. Alexander, on receiving the death-certificate, held it to the light and detected the alteration. The police were immediately informed, to whom he handed the papers. The document on which the offence is committed bears the signature of Dr. F. S. Peck, then surgeon of the above hospital.—*Statesman.*

ACCIDENT ON THE HOOGHLY.—On Sunday morning, at about eleven o'clock, a boat laden with one hundred maunds of chunam was going down the river from Meerbhur-ghat to Sankrai, when on nearing the engine-house moorings, it collided with the s.s. Bagdad, which was coming up the river, and sank with the cargo. Out of the six men who were in the boat, one is missing, and the rest saved themselves by jumping on to passing boats.—*Ibid.*

SERIOUR RAILWAY ACCIDENT.—A telegram from Calcutta, July 31, to the *Pioneer*, states:—An accident of a serious nature occurred on Friday night between Moorarjee and Nulhatty stations on the East Indian Railway loop line. The accident occurred to the Nawab of Moorshedabad's special train conveying a marriage party from Sahibgunge, to Nulhatty, in the passage of the train across an iron bridge, which suddenly gave way. The couplings of the engine and tender snapped after the engine had crossed the bridge, and the tender, [illegible] and guard's van were precipitated into [illegible]. The European guard and a native are [illegible] to have been killed; and twelve passengers (natives) were seriously injured. The [illegible] escaped unhurt.

[illegible] is indebted to the courtesy of [illegible] to the Agent, E. I. R. Company, for [illegible] further particulars. The special train [illegible] Saheb gunge, at 8-30 p. m., of the 26th [illegible] Nulhatty, and ran off the line at bridge No. 220 between Chattra and Mooraree, about two miles from the former station. There were 24 first class, 11 second class, and 40 third class passengers in the train at the time of the accident, who formed a wedding party from Purneah, and who were booked from that station to Nulhatty. One of these passengers, a child, is reported to have been killed, and twelve others more or less injured, the guard is also reported to have been severely injured. Six of the injured passengers were removed as soon as possible to Rampore Haut, and three others who, it is said, are seriously injured, were at once sent to hospital. Several of the injured passengers went on to Nulhatty, probably, to proceed to their destinations at Azimgunge. Information of the accident appears to have been received at Mooraree at about 1-30 a.m. on the morning of the 27th, and on receipt of the station-masters telegram, arrangements were at once made for the despatch of all necessary assistance from Rampore, Burdwan, and Jamalpore. A special train of empty carriages, as soon as the news of the disaster reached that station, was also directed from Burdwan to the scene of the accident, in charge of the station-master of that station. All arrangements have also been made for the transhipment of trains at the break. The special train which met the accident consisted of two first class, one second class, one third class carriages, and two break-vans, in charge of a guard and ticket inspector, and was timed to run between Mooraree and Nulhatty at a speed of 20 miles an hour. The train is reported to be completely wrecked. As stated before, the cause of the accident is as yet unknown. Heavy floods have taken place in the locality, and this may, probably, have weakened the bridge.

MADRAS.

A PLEASANT RESIDENCE.—"Paterfamilias" writes to a Madras paper:—"Could you or any of your readers kindly inform me what is the best thing to be done in case of a sting from a scorpion, until medical aid can be procured. My house is just now infested with them, and I was just in time last night to prevent my child from seizing one."

SEEING FOR HIMSELF.—Mr. Justice Hutchins was to-day (July 30) engaged in a personal examination of the Registrar's Office, High Court, Appellate Side. He first visited the posting department upstairs, accompanied by Mr. G. Mackenzie, the present Registrar. His lordship went up to each clerk and enquired the nature of his work, and in some cases personally examined the work. The translation and cash departments downstairs were then visited.—*Madras Mail.*

CANNIBALISM AMONG SNAKES.—Mr. E. A. Minchin writes to the *Madras Mail* from [illegible] Ganjam District:—"It may interest ophiologists to know that a fine specimen of [illegible] *fasciatus* was caught in the [illegible] 16th July, and that it was [illegible] swallowing a [illegible] I [illegible]

WE have just received a consignment of NEW RACE CHRONOGRAPH WATCHES which for durability, accuracy, precision, and convenience leave nothing to be desired.
The Chronograph hand is in front of the watch over the hour and minute hands. The cases are extra strong, with a solid cover on the back and a glass inside to protect the work.
The general objections to the Chronographs with second hand and glass on the back were that those glasses often broke, and each time necessitated a cleaning; that the glasses did not thoroughly protect the works from dust; and that to move the regulator it almost required the help of a watchmaker.
All these serious drawbacks of an otherwise good watch have been avoided in the construction of our new and improved Chronograph watches.
